# ReviewClipse

A free continuous-code-review plug-in for Eclipse

Mario Bernhart, Christoph Mayerhofer, Thomas Grechenig  
 Vienna University of Technology, Vienna/Austria  
[www.inso.tuwien.ac.at](http://www.inso.tuwien.ac.at)

# Features

- Eclipse integrated easy to use UI
- Review scope = one changeset in the SVN
- No additional server (file/SVN based storage)
- Works offline
- Works with Subversive and Subclipse
- Assignments of reviewers/authors with filters
- Create Mylyn tasks out of (bad) reviews
- Freeware

# Scenario for the demo

- Team:
  - mike - lead developer
  - john - test expert
  - ben
  - chris - new to the team
- Scenario A:
  - Mike reviews all changesets of Chris
- Scenario B:
  - John reviews all \*Test\*.java of all other team members

# Demo

Java - Review Editor for project test.sharedproject1 - Eclipse SDK

File Edit Navigate Search Project Run Window Help

test.sharedproject1

# What we are working on

- Enhancements:
  - Highlight and annotate directly in the Sourcecode
  - Notification of new reviews
  - Reports and Summaries
  - User Requests and Bugfixing
- ECF Integration:
  - Datashare API to send Notifications about new Review Comments
  - IChannels and IChannelContainerAdapter
  - Notifications are send asynchronously
  - Point-to-Point and Publish-Subscribe Messaging

# How to get it

- Update-Site:  
[www.inso.tuwien.ac.at/projects/reviewclipse/update-site](http://www.inso.tuwien.ac.at/projects/reviewclipse/update-site)
- Eclipse  $\geq$  3.4
- Subversive or Subclipse SVN Client
- Subversion Repository  $\geq$  1.4.6
- Optional: Mylyn Task List  $\geq$  3.0.2
- Contact:  
[www.inso.tuwien.ac.at/projects/reviewclipse/](http://www.inso.tuwien.ac.at/projects/reviewclipse/)  
**support.reviewclipse@inso.tuwien.ac.at**
- You may find ReviewClipse @ EPIC
